

Stop Work Policy

At Elmya we recognize our responsibility and duty of care and are committed to ensure safe working methods. We must guarantee that no one under our control is exposed to unacceptable levels of health or safety risk at work. Likewise, we promote responsible behaviour in terms of safety, health and the environment.

All members of Elmya and any subcontractor working on any Project managed by Elmya, have the right to stop any activity in case safety and health conditions are not guaranteed. Whoever identifies risks must shortly communicate it to the supervisor without fear of consequences.

Elmya undertakes not to adopt repercussions on employees who, in good faith, have indicated dangerous situations which has caused work stop, even when it may later be shown that the action was unnecessary.

Elmya also encourages all parties involved to report any unsafe acts or conditions.

The Safety and Health of the workers and the protection of the Environment are our permanent commitment.
